AN ALARMING RUMOR

Sanguinary Conflict Reported To Have Taken Place Between British and French Troops.

I ag s Hinderland the Bone of Centention-The Story Discredited

Berlin, Nov. 26.—A dispatch to the Frankfort Zeitung from Rome reports that a sanguinary conflict has taken place between the French and British h Lagas Hinterland.

London, Nov. 26.—While the accuracy of the Born dispatch appropriate

In Lagos Hinterland.

London, Nov. 26.—While the accuracy of the Rome dispatch announcing that a condict has taken place between the French and British troops in Lagos Hinterland is doubted in London, the morning papers to-day pointed out that because of the imminent danger resulting from the proximity of the two forces in the contested territory, a conflict between the French and British forces in Lagos Hinterland has been anticipated for some time.

Both countries have been hurrying troops into the disputed country. The trouble is of about 30 years' standing. Later in the day a rumor was received at the British Colonial office to the effects that there had been a collision

effect that there had been a collision between the French and British forces at Nikki, which is said to have been

at Nakh, which is said to have been captured by the French troops.

Officials at the colonial office, however, regard this report as highly improbable, as they explained that the British forces in Hinterland, who are in very limited numbers, had strict orders to avoid a collision with the French forces had been instructed not French forces had ben instructed not to come in contact with the British.

NEWS OF VANCOUVER.

Vancouver, Nov. 20.—News reached here on Wednesday of an unfortunate gun accident, whereby Captain J. Mc-Master lost his lift. In company with a couple of triends Captain McMaster left here on the steam taunch Uncle Tom on a duck hunting expedition at the North Arm of the Fraser. While setting aut of the launch, near Magce's sensel, about 10 o'clock in the marning. Capt. McMaster's gun was accidentally discharged, the charge entering the body under the left arm-pit. Capt. McMaster was killed instantly, and fell out of the boat into the river. The body was inmediately recovered by his companions, and as soon as they saw that he was dead, word was sent into town. Dr. McGuigan, the coroner, and Provincial Officer Campbell drove out to the North Arm in the afternoon and held inquest. Capt. Jones, Mr. Klesson and the boy in charge of the lambure concerning the accidentally developed to the North Arm in the action and held inquest. Capt. Jones, Mr. Klesson and the boy in charge of the lambure evidence concerning the accidental discidental discidental discidental discidental discidental discidental in the city for business of the household of the command of a steamer trading between Philadelphia and England. Of late he has been in this neighborhood for some time. It is said that he was formerly in command of a steamer trading between Philadelphia and England. Of late he has been engaged in fishing and huntine, and it is reported that he had recontive been appointed captain of a local steamer, and was to take charge on the lat of December.

The chief talk in the city now is the C.P.R. proposition regarding the new C.P.R. proposition regarding the new

A COMPETITIVE LINE

Western Union Telegraph Company Will Enter This City Says Mr. Jaynes.

General Superintendent Now Here to Arrange for the Coming of His Company.

The Western Union Telegraph company's wires are to be extended to Victoria. So says Mr. Frank Jaynes, general superintendent of the company, who is registered at the Driard. The route by which the company will enter the city has not yet been decided upon, but come they will, if not one way, then the other. All that is now required is the come they will, if not one way, then the other. All that is now required is the formal consent of the Dominion government—the informal consent has already been obtained—and the consent of the corporation of Victoria to erect the necessary poles and string wires within the

ments for the advent of his company in this field. He is accompanied on his trip by Messrs. D. R. Duvies, of San Francisco, E. H. Brown, of Seattle, and Edward Schwab, of San Francisco, who will take part in the necessary investigation. This afternoon Mr. Jaynes attended a meeting of the council of the Board of Trade, when the question of telegraphs was discussed.

Another extension contemplated by the company is a cable from Seattle to Port Townseed and a line from the latter point to Port Angeles.

Mr. Jaynes anys that the Western Union will not seek to enter the interformation.

Mr. Jaynes says that the Western Urana will not seek in enter the investor of Alaska. It is his opinion that if a texpraphic service is established to Dawson City it will be by the Canadian government. The company which Mr. Jaynes represents has, he says, a man looking over feasible routes by the trails from Dyen and Skagway, but only with the idea of obtaining general information. The length of the routes, with heavy costs for maintenance and no income until Dawson City is reached, would be a reason for deterring any corporation from building. As a government project it would not contemplate such returns as would be expected by a private company, and the Dominion government may at some time establishment may at some time establishment.

ON TESLIN TRAIL

H. T. Ray, an American, Tells of His Experiences—Englishmen Control Packing.

Game Plentiful, and Vegetables Easily Obtained at Telegraph Creek.

The following letter from H. T. Ray, in American, to a friend, will be read

an American, to a friend, will be read with interest:

This lock Paul N. F. T. Det 4.

I deferred writing to you until we should have gotten over to Teslin lake, but as it will be difficult to get mail out from there. I will write a short letter now while there is a chance to send it aut.

We started to pack out a Telegraph creek—the lead of navigation on the Silekeen river isomediately upon our artical there on the 4th of September. There were about a hundred head of pack horses, there, packing to Dease and Teslin lakes, but they are all owned by Englishmen. We had to pay duty on every pound we took in except our clothing and blankets. The prices at the two trading posts are high, considering the cheapness of transportation from Sound points, it being all by water. Flour is now \$4.50 per hundred; bacon, three pounds for \$11 dried fruit, 25 cents per pound, one pair of overalls, \$2, and everything class in proportion.

busiling town next summer. What is most needed at present, and until a railway is built, are transportation it ilities. The distance between the about hentioned points is between 175 and 200 miles, and must be covered on foot or horseback. The country is a good one to travel through. The climate is about the same as in Montana—so old Montana men say. Horse feed along the trail is splendid, and all the hardy varieties of vegetables, such as potatoes, cabbage, turnips, and even onions, can be raised without any trouble. I know this from having seen it myself. A potato weighing two pounds and three quarters was dug at Telegraph creek while we were there, and when we came to Taftahn river, farther up the trail, we bought a sack of potatoes, as good ones as we could get at home, the price being five cents per pound. There are only about three or four places where ranching is done, and these only on a small scale, as there is no demand for the products, owing to the scarcity of people to consume the same, as the ladians est little else than fish and game, and some four. Talk about Indians, they are the worst set of creatures that were very allowed to live. To lie and deceive white men seems to be their whole object, and they succeed only too well for the good of the white people.

PLENTY OF DUCKS.

THEY HAD A PERMIT.

British Columbia Cattle Men Were Not Violating the Law.

Grand Forks, B. C., Nov. 23.—Ellis & Cawston, the cattle kings of this section, whose band of 100 head of cattle were seized on the reservation near Oro, is the Similkameen a few days ago, say that they had a permit for driving their cattle without a convoy across the reservation.

As a consequence of this statement Customs Officer McDonald, who made the seizure, has gone to Bossburg to communicate with the head office at the communicate with the head office at communicate with the head office at the communication of the communicate with the cattle data the chief at the fatter them leads to the chief at the fatter them leaves and on Mr. Jaynes this afternoon he was the manifered n

VAST OPPORTUNITIES

Ample Place for Capital and Labor In the Klondike—Alex. McDonald's Success.

Now a Poor Man's Country, If He Be Industrious, Lucky and Well Provisioned.

REDISTRIBUTION.

From the farrage of aimless questions, involved reasoning and misstatements to which the Colonist treated its readers on not be acceptable as a candidate to a Wednesday morning on the alleged sub-ject of redistribution we are led to the belief that the writer is in a dense ros regarding this matter and that his extarto draw off attention from that fact.

The Colonist seems to be working through the Liberal platform teredatashion and has now reached a plank so solid that its boring apparatus is in the policy and personnel of the government. Mr. Hunter has now a record behind him, and the combination which has misruled British Columbia for four-possessed. The Colonist writer magnanimously blinks the notorious culpatibility of its masters on this question, and with of its masters on this question, and with an affectingly implicit trust in the gullibility of the public drags into the discussion the recent senatorial appointment. One can only admire the hardi-hood of a writer who would thus dare to trifle with the patience of his readers by importing into the discussion of redistribution a clutter of irrelevant nonsense about the senatorship. It would be as reasonable to interject a remark about astronomy in a discourse upon

the promised subject to be discussed in his misleading caption "Redistribution, the fog somewhat thickens rather than lightens. The real questions here are. Does the present legislature properly represent the people? and if it does not what method would be best to redistribute electoral power? To the first we answer no. The Robsou government's measures were unsuccessful attempts to cure the evil, blended with a determination to "gerrymander" the province. We concede and the Liberal platform concedes that cities should have a smaller proportional representation than that allowed to thinly-populated districts, but this should be done in proper business. Ilke afyle and not according to the fancy of the government.

The fathers of confederation made Quebec the pivotal state, and gave the other propulation; and when the sparsely secting mechanical and the second edition has been reduced from \$86\$ per annum to \$4\$ per annum for the early morning edition, and the second edition has been reduced from \$60\$ per annum to \$4\$ per annum for the early morning edition, and the second edition has been reduced from \$60\$ per annum to \$4\$ per annum for the early morning edition, and the second edition has been reduced from \$60\$ per annum to \$4\$ per annum for the early morning edition, and the second edition has been reduced from \$60\$ per annum to \$4\$ per annum for the early morning edition, and the second edition has been reduced from \$60\$ per annum to \$4\$ per annum for the early morning edition, and the second edition has been reduced from \$60\$ per annum to \$4\$ per annum for the early morning edition, and the second edition has been reduced from \$60\$ per annum to \$4\$ per annum for the early morning edition, and the second edition has been reduced from \$60\$ per annum to \$4\$ per annum for the early morning edition, and the second edition has been reduced from \$60\$ per annum to \$4\$ per annum for the early morning edition, and the second edition has been reduced from \$60\$ per annum to \$4\$ per annum for the early morning edition, and

ly-settled province of British Columbia entered confederation it was allowed six members although on the basis then used it was not entitled to more than three. For reasons similar to those that induced British Columbia to ask for and the Dominion government to accord relatively higher representation to this province than was enjoyed by the other provinces at that time, we now advocate provinces at that time, we now advocate a lower unit of population as the basis a lower unit of population as the basis of representation for the sparsely-populated districts than will be fixed for the populous cities and districts. When responsible government was first introduced in this province it was impossible to divide the province into districts and grant representation according to population, which dwelt mainly in Victoria and Westminster, which would have given those cities control of the legislatury. interests, absolute representation by population in the unorganized state of the province at that time being impracticable, British Columbia's natural advance in all directions has changed that, sheet. British Colombin's natural and it is only just that representation of the districts should conform as nearly as possible to the principle of representation by population. No considerations of party, wire-pulling or "gerry mandecing" should be tolerated by men who desire the best geverament for the province. The people here are the rule ers; the voters of the province are the arbiters of their own provincel affairs. But it is obvious that a corrupt government might find it possible to retain power by the simple expedient of arranging the constituencies to suit their improper purposes. This was done by Mr. Robson, and, as a consequence the present legislature cannot be termed respectively. The pasty, that thrust assiste every consideration save equity in dealing with this question deserves well of the country. Every portion of the province should receive representation uccording to population, the same to be determined by its electoral vote, and no citizen, whatever the lessue at the polise could have cause for complaint.

The six questions, therefore, which the Colomiet asks means simply nothing, being utterly irrelevant. The government in power will, of course, decide when and how a bill shall be browned into effect. The principle apon which redistribution must be based are weighly of consideration of statesment, and as such the Opposition lessiers have set them forth for the approval or criticism of the citizens of British Columbia.

FROM COMOX TO CARIBOO.

Hunter, M. P. P. for Comos, seph Hunter, M. P. P. for Comox. asking that gentleman to become a can-didate for Cariboo, is being circulated at 150 Mile House for signatures, but with what success we are not informed. Mr. Hunter has been conspicuous in the house as one of the most slavish sup-porters of the Robson, Davie and Turner governments. As the superinten also been looked upon as one of the special representatives which that cor-portion is known to have in the legislature, rather than the delegate of the people of Comox. It has been rumored of late that Mr. Hunter would not again be a candidate in Comox, and this movement in Cariboo-which has no doubt been engineered from Victo-ria—is corroborative evidence that Comox is not regarded by the govern as a "safe" constituency. We are in-

teen years has a history. Neither the man nor the party will again be acceptable in Cariboo. It was Mr. Hunter who said "that if a white man could medical jurisprudence:

When the Colonist writer quits that purely extrinsical matter and comes to the promised subject to be discussed in his mislending caption "Redistribution," the fog somewhat thickens rather to be discussed in his proposed candidature in Cariboo is simply an attempt to add

Secretary John Sherman is not admit The fact is Sherman is a skinful of pre-Hence the arrangement that the legisla-fure should be represented by commer-cial, mining, agricultural and pastoral

It may be interesting to those who have disputed in regard to the nationality of Scottleb regiments to learn that the men of the Gordon Highlanders killed in the action at Durgai were almost without exception hatives of Scotmost without exception natives of Scot-iand. It may be true, as some have confended, that Scottish regiments are filled up with men of other nationalities, but at Dagai these warriors were not around when the buillets were seeking shelter. Strange to say, the same has been the case when the Highland regi-ments have been declinated in other ments have been decimated in other deadly fights—the dead, almost to a man, were Scotsmen born. Maybe it is

As whimsical old gentleman who tol-lowed engineering in India and has now departed this life has left a queer will, in which the bequeaths to a testotal brother, a curate in the Church of Engbrother, a curste in the Church of England, a thirty-gallon cask of Scotch whisky, on condition that the liquor be used for medicinal purposes. The same will leaves the same curate all the testator's letters and diaries on condition that the legatee burn them without previously reading them. Probably that old see

Alarming news comes from London. It is reported that I an Making and S. R. Crockett are busy writing a life of Christ and that each is working hard to get to press first. Elizabeth Stuart Phelps Ward is engaged in the aamsort of literary work, and abs.-will beat her British competitors; for her book is to be issued next week.

ARION CLUB CONCERT.

Opening of the Sixth Season in Institute Hall on Wednesday Evening.

A very anspicious opening of the Arion club's sixth concert season in Victoria took place at institute half, View street, on Wednesday evening. An antidence which may be fairly described as thoroughly representative of Victoria's musical taste, not

SCOURGED AT LAST.

The saying about giving a certain sort of people rope enough and they will hang themselves has never had a more strikthemselves has never had a more strik-ing exemplification than in the doings and undoing of the provincial govern-ment. To all the protestations for years past of the opposition party and press that it was an unseemly and disgraceful thing, as well as damaging to the prov-ince, for ministers to make merchandise of their positions and titles in the specu-lative markets of the world, the govern-ment and their organs have had nothing lest confirmations used a ministers.

the suspicion of such prostitution. The matter is of so much importance, however; the criticisms are so numerous and senthing and so unanswerable, both in their matter and on account of their high and disinterested source, that the question will hear repeated reference.

Referring to the Dawson City (Klondike) and Dominion Trading Corporation, Ltd., recently incorporated in London, one of the speculative concerns with which our precious premier and his president of the council have identified themselves, the London Times expresses its regrets at the names of the Hon. J. H. Turner and the Hon. C. E. Pooley being placed on the company's advisory beard, because "men in their positions are establishing a bad precedent when they allow their names to be connected with undertakings of this class, however sound they may be." The Pall Mall Gasette endorses these santiments, and the Westminster Gazette observes that "premiers and promoters are salking from bad to worse." Another journal, Money, declares the matter is becoming a financial sendal, while the Dally Chronicle has this scorching bomment: "The sooner the prime minister of British Columbia retires from polities and devotes himself to finance the better it will be for the colony and companies in which he is interested. We think the capital of this last concern (the Dawson Chy (Klondike) and Dominion Trading Corporation, Ltd.), viz., £600,000, including 6,000 objectionable shares of £2 cuch, is absurely large. We strongly advise investors and speculators to leave this company alone."

Just tance the diagrace put upon the pravince by having a concern with which our premier and president of the council are ostentatiously connected denounce de to the residies of the score.

Selection from "The Shop Girl" ... Carlyl
Solo for Charinst—"Somnambula" ... Carne

Patrol-"The Crack Regiment"..., Mose Selection fm. Hoyt's "Milk White Flag"

-There was quite a little bevy of minor offenders before the police magistrate this morning. Joseph King, alias Ruben Badderley alias Billie Wilson, a dope fiend and ali-round tough, weat down for a month for stealing a lot of shoemakers' tools from Mrs. McCracken, and Frank Wilson was sentenced to two months for assaulting Rev. Mr. Ellison. Frank Wilson probably has few equals for ungratefulness. Mr. Ellison took him in after he had served a term in jail and gave him work. In return Wilson robbed his benefactor and was sent back to be cared for by Warden Johns. Upon his, release he assaulted Mr. Ellison, for which he will now spend two months behind bars. John Wilson, for which he will now spend two months behind bars. John Wilson, for which he will now spend two months behind bars. John Wilson, for which he will now spend from assaulting a Chinaman, and Ah Foot. a vaggant, who was caught in close proximity to a chicken roost, were

The fire department covered most of the city last evening looking for a fire that was burning at Spring Ridge. Either through the ignorance of the man who turned in the alarm as to how the box should be pulled, or from the fact that two boxes were rang at the same time, the men could not find out where the alarm came from. First they went to James Bay, to box 14, and then to box 41, on Pandera street. After returning to the hali they decided to go to box 45, Spring Ridge, where they found a small three roomed house on the corner of Denman street and Fernwood road in flames. The house belonged to J. Fillillps, a anotornam, who recently purchased it from E. Morris, the occupant. Mr. Morris went out last evening, leaving a five in the stoye and two lamps burning. When the department arrived it was too late to save anything. The house was insured for \$500 and the furniture for the same amount, both in the Imperial company. In "pulling" a lox it should be remembered that all that is necessary is to pull down the small lever and then let it go.

There will be a number of absentees in the arimary departments of the public achools on Monday, on which day an enouiry will be held at the city police court to fix the blame, for a number of petry thefrs that have been committed in James Bay district recently, including the thort or a sail from Capt. Babblington, for which three boys are now under arrest. These three, boys are the captain and officers of the old sloop from which the police secured so much plunder last summer. The garky was pretty well broken up at that that, but as there was no way of punishing the boys, there being no reformatory, they soon got into their old way again. First came the discovery of Capt. Babblington's sail, which one of the crew says the captain ordered him to secure under penalty of being discharged. Since then other better have been typed to the parates, and the more serious charge of home-breaking is pending against them. It is ellered that they broke into an empty house at the corner of Michigan and Oswego atreets and stole a number of lanterns. There are ten or more boys implicated. The older ones will be prosecuted. Chief Sheppard has decided to have the disloop destroged.

Splendid Game of Rugby at the Black Diamond City Yesterday

EVENLY MATCHED

Nanaimo Wins With One Try to Nil A Hard, but Friendly Game.

The Victoria and Nanaimo Rugbi football teams came together once more on Thanksgiving Day on the Nanaimo grounds, and a magnificent game was the resulf. According to most of the spectators it was the pretifest game to watch that has been seen in Nanaimo for many a long day, and like all the games between these two clubs, was hard and fast football from the kick-

the Victoria captain, having won the toss, elected to play with the advantage of a slight bill, and at 3:15 Ban ford kicked off for Nanaimo. The forwards in black and yellow followed the kick well, but Gramble returned at the kick well, but Gramble returned the lick well, but Gramble returned at touch between the 25 and half flag From the threw out Nanaimo starte rushing the ball down towards the Victoria goal line, and just as it was be ginning to look dangerous A. Creater the throw out loose scrimmage were the order of the day, until of the Victoria halfs got away well an passing at the right moment to Gamb he in turn transferred to Witson, but the Victoria wing man was brought: grass by a combined rush of the Nana mo halfs and three-quarters. It wan ow Victoria's turn, but Bamford geting the ball from a dribble relieved ha long kick into touch and the gam settle down in seutral territory. A string the string the ball towards, by pure hard rushing, carried the ball towards his ow goal, and the ball several times well into touch. After each throwout the Nanaimo forwards, by pure hard rushing, carried the ball towards the Victoria line. The game, however, was a destined to stay there long, for Frait Cullin, picking up well, made a fine rulling the ball went into touch dan serously near the Victoria 25. On bein, ackled the ball went into touch dan serously near the Victoria for Nanaims lepht up in the corner. The kick, which was at a most difficult angle, was aken by Edwards, but was not improved. The 25

After the usual breather, Victoria kicked off and at once rushed the baldway, but Quine, who, by the bye, always seems to be in the right place relieved by a long kick. In the serun one of the Victoria halfs got the ball but his pass it his three-quarter was in tercepted by Nanalmo, and the bal was taken down to Victoria's 25, when it was stopped by Pemberton, an quickly taken back by the lads in reto centre. After a long serum Halme picked up, and, dodging his opposing half, carried the bull to the Nanalmo gon and the ball was taken down the little Victoria centre made a beet line for the Nanalmo gon with Frank hallin backing him up of the right, and with almost a clear field from the them to the name of the rescue, and hy good combined work the ball was taken back to the Victoria line. It now only wanted about seven minutes to time, and Victoria's hopes went down, but Gamble securing, started a magnificent rush is which everybody secuned to take part and, amilist the frantic cheers of the ball was carried to within a few yard of Nanalmo's goal poats, where a loose of Nanalmo's goal poats, where a loose

Clothing For Boys.

The manufacturers have put every possible point of style and properness into this clothing for hoys. The boy of 9 to 14 years may have his clothing just as handsomely tailored as his father's. For instance:

Soys' intest pattern, brown check tweed sairs, 3 pieces, double breasted, sattern litted, sailk sewn seams, coats have five pockets with flaps, vest has three pockets and notelied collar, pants have three pockets and lined throughout, \$6.75; and to every boy betraign us this ad, when he buys a sult (no matter what price) we will give a cap, handkerchief and pair of braces free.

Cameron,

The Cash Clothier, 55 Johnson Street.

ly going over the line. But it was a Nanaimo man who was nearest, and, dropping on the ball, prevented a certain try, and probably a goal, as the ball was close to the posts. The whistle blowing a few minutes later a fine game ended in a win for Nanai-

mo by one try to all.

But there was more pushing in store
for Victoria, as on the way down from
Nanalmo the engine had a slight mishap, and the train coming to a standstill could not be got under way again.
Here it was that the Victoria football
team came to the rescue, and their forwards pucking in well, the train at once
begges to move, and, in fact, did not
stop until she reached this city. Such
are Victoria's formards.

HER IDENTITY DISCLOSED.

Rachaet Ford, who impersonates the character of Sadie in "The Late Mr. Castello," which opens here on Monday, is the daughter of Colonel George H. Burton, inspector exceeding the Pacific district, U.S.A., stationed at San Francisco. Her Identity was disclosed by the remarkable resemblance borne by the photographs of Rachael Ford to Miss Lells Burton, the daughter of Col. Barton. This was noticed by an army officer at Vancouver, Wash., at which place the company gave a performance last

Miss Burton reluctantly admitted that the surmise of the officer was true. The fact that Miss Burton is the leading woma of a theatrical company came as a surprisin society circles of San Francisco, Wasington and other cities, where she is we known.

ington and other cities, where she is we known.

In an interview Miss Burton said:

"I presume I may as well confess, since it seems my identity has been disclose by some one, but I must admit I am no a little disappointed that the disclosur should have comes at this time. In deference to my own wishes and those of my father and mother I should have much preferred to remain the fact must have be remained in the most public at some time, and perhaps I is as well now as at any time. My transme to be a like the count daughter of Colonel and Mrs. George H. Burton, I have two sisters, one olde and one younger than I. The former I the wife of Lieuteant Pearce of the United States army. The latter, Miss Cathro Burton, is with my parents in Sai

SHIPPING NEWS.

The Happenings of the Day Along the Water Front.

on Wednesday, just in time to allow her master and crew to speed Thanksgiving at home. While at Clayoquot Captain Walbran made an investigation into the complaint that the Indians were fishing illegally in Claroquot Sound. The complaints he found to be as stated, for the Indians were using seine nets and placing weirs across many of the small streams which run into the Sound. White, at Uclufet he found the U. S. mooring buop placed at Cape Flattery. It had broken adrift during the heavy gales and floated northwards. It is now on the Quadra's seow at the government wharf and Uncle Sam's naval authorities can get it on sending for it. Captain Walbran also discovered an uncharted rock in Browning passage, Chryoquot sound. It had 17, feet of water on it, and so will not be dangerous to the local coasting teasels. A honey was placed on a rock in the north channel rapide of Browning passage, and as the channel is very much contracted by this rock Captain Walbran made an investigation of the southern passage. It was found to be safer, and Captain Walbran strougly recommends its use instead of the northern passage. The Quadra will go out to Brotchie ledge to morrow should the weather be favorable with a large platform booy, which will be placed on the ledge to mark it until the beacen is built in the spring. The can buoy now on the rock will be removed.

The steamer Rosalle salled for the north yesterday evening with another large contingent of seekers after wealth and much provisions and other freight Among those who embarked here were Frank Turner and his partner, H. Walter, who took up ten dogs, nine to form their dog train and one they are forwarding to Norman Macaulay. Others who also took up dogs from here were who also took up dogs from here were with H. Harrison and Barney Hyan, two San Franciscans, the former a photographer, and a party of Australian miners who arrived from the Antipodes on the Warrimoo. All will debark at Dyes and push right in to Dawson as soon as ossible. In the hold of the Rosalle were several large drums of wire cable, and blocks, bankets and other parashberhalla of the Chilcoot Railway & Fransportation company, who are now pagaged in building a freight railway over the Chilcoot pass. Among other revisions for the Northwest Mounted Police taken up by the Rosalle was a arge consignment of dried ashuon sent up by local frams. This ample, which is cood food for man and dog, and easily heart of dogs would do well to look after heir canines while an upward bound thank at teamer is in port, for it seems that some of the more unscruptions to set when the team of the more unscruptions has will answer their purpose.

The atomics Unstilla arrived from an Francisco on Wednessay excaling the 97 tons of general merchandisor Victoria merchands and 21 passes ora for this city. The security walls sailed for the Bay City with

light freight cargo and the following Victoria passengers: G. H. Willis and wife, Miss M. E. Hyde, Mrs. J. Seymour, A. Hammooid, A. A. Stewart, Mrs. C. H. Chisley, Mrs. H. Wilson, Mrs. Caldwell and Mrs. Simpson.

The scaling schoolers lying in their winter quarters above the bridge have of late received a number of visits from water front pirates, but as the schoolers had been well stripped by their owners the visits were not very well rewarded. The pirates broke locks and doors and did other damage in effecting entrance to the cabine of the vessels. Among the vessels last visited were the Annie E. Paint and the Vera.

The British ship Kambira has completed loading at Vancouver and is now ready to sail for the United Kingdom with her large cargo of lumber from the Hastings mill. Her cargo is valued at \$17,500, and consists of 1,394,244 feet of rough lumber.

-D. M. Burnett and Henry Fisher were brought before Magistrate Macrae in the provincial police court this afteracon to answer to the charge of cattle stealing at East Sooke on November 1st last. When the case was called the superintendent of provincial police asked that the case against Mr. Fisher be dropped as there was no evidence against him. Mr. Fisher super that he could have produced several witnesses to show that he could not have been at the place when the calf was killed at the time alleged. The case against Burnett has been adjourned until Tuesday next.

The steamer Resaile sailed for the orth yesterday evening with another are contingent of seckers after wealth island was finally knocked down to J. T. behave, the price paid being \$15,000.

-Children under 15 years will be admitted to the Edison projetoscope tomorrow from 1 p.m. to 5:30 p.m. for 5e; 18 special scenes, 67 Yates street.

STORY OF A PAMOUS POEM.

Written, Then Stowed Away in a Desk for Three Years.

for Three Years.

Mrs. Rose Hartwick Thorpe, who wrote "Curfew Must Not Ring Tonight." lives in a pretty frame cottage at Pacific Beach, near San Diego, Cal., says the Philadelphia Press. When asked recently how she came to write the poem which had made her famous she replied: "I cannot remember when I did not write poetry. I have done it ever since I was a child. My mother did not approve of my writing. One day after school I went to my room. I had been studying the historic period of the poem, and the incident impressed itself so atrongly on my mind that I felt impelled to write about it. I was about half way through when my mother came in, saying

KAMLOOPS.

KAMLOOPS.

The bridge washed away at American Bar, four miles above Hope, has been replaced by a twe steel structure. The damage done by the washout at Nicomen has been repaired, and the line generally, east and west, put in good shape with the dispatch characteristic of the G.P.R. Pucific division. M. Callahan, who had charge of a sream hoist, is reported to have been washed late the river about te miles below North Bend, by a freshet. His body has not yet been recovered. A Chinaman is also supposed to have been lost at the same time. From now on trains will run on the new schedule. No. 1 will arrive here at 11:10 p.m. and No. 2 at 2:15 a.m.

Mr. Frank Harmon received a telegram from Woodstock. New Branswick, on Saturiay, conveying the sad intelligence of the death of his wife at that place. No further particulars have been received so far. The late Mrs. Harmon left for the east three weeks ago. She was then in very poor health and it was hoped that the change would prove beneficial. Mr. Harmon has the sympatry we week the project as a very valuable suggestion, but desire to call the government metallurgical school, we wish to endorse the project as a very valuable suggestion, but desire to call the government is attention to the fact that its usefulness would be much impaired if it were placed in Rosaland, the extreme end of a large province, and a place where board, etc., for students must necessarily be and continue to be, higher than almost any other point. Kamloops is the centre of the province and of public travel and offers every advantage as a site for stream a school, together with the cheapest and living in British Columbin.—Inland Sintine!

PLATFORM.

Adopted by the British Columbia Liberal Association, Oct 9th, 1897.

At the British Columbia Liberal Con-rention, held at New Westminster on Oct. 8 and 9, the following platform

Oct. 8 and 9, the following platform was adopted:

We denounce the Turner administration, which has justly forfeited the confidence of the people of this province by its reckless squandering of the public revenue; its alienation of the public lands by grants to railway promoters and private speculators, (notably the grant to the Cassiar Central Railway Company); its system of class taxation; its encouragement of monopolies, its open support of Oriental labor; and its persistent attempts to encourage sectional jenionsies between the Island and Mainland for political purposes.

And we denounce the practice of ministers of the crown making use of their official positions to promote their private interests by associating their names with mining and other speculative companies.

We advocate—

Advices received from Mr. J. B. Hobson, manager of the Cariboo Hydranile Mining Coputative, wholes date of the Alfa-Market Safe that operations have been suspended for that operations have been suspended such that the season and the final clean-up made. We have a superative this pear in Cariboo, and the final clean-up in Cariboo, and the final clean-up was made hurriedly, in case the flumes should become frozen over. There was also a great scarcity of water this season; in fact, for some time past the monitors could only work two hours daily, and a comparison of the water records of this and last year shows that the amount of water was only about half that of 1896. The cessil of this season's operations is thus far short of the estimate given in the last annual report, \$100,000, but is \$12,000 more than that office estimate given in the last annual report, \$100,000, but is \$12,000 more than that office with the season's operations of the water temporary of the estimate given in the last annual report, \$100,000, but is \$12,000 more than that offices of the season's of the cessions of the cession of \$3,700. The gold brick was shipped from the mine on the 12th inst. and is now for route to San Francisco. The total yield of the sea sou just closed amounted to close on \$133,000.

It is proposed to construct a new ditch.

San Francisco. The total yield of the sea sou Just closed amounted to close on \$138.000.

It is proposed to construct a new ditch—the Moorhead ditch—of a length of 7% unlies in time for near season; a operations, and then no difficulty regarding water will be experienced. A considerable amount of preliminary work in connection with its construction has already been done, and, during the winter, a force of men will be employed in getting out lumber and doing other work, in preparation for the recepting of operations next spring.—Kamloopa Sentine!

Do You Use It?

It's the best thing for the hair under all circumstances. Just as no man by taking thought can add an inch to his stature, so no preparation can make hair. The utmost that can be done is to pro-mote conditions favorable to growth. This is done by Ayer's Hair Vigor. It re-moves dandruff, cleanses the scales acurishes the soil in which the hair grows, and, just as a desert will blossom under rain, so bald heads grow hair, when the roots are nour-ished. But the roots must be there. If you wish your hair to retain its normal color, or if you wish to restore the lost tint of gray or faded hair use Ayer's Hair Vigor.
